📋 SUMMARY

Identity and Access Management professional with 4+ years of experience securing enterprise environments within one of Africa's largest banking institutions. Experienced in IAM architecture, identity governance, application integration, cybersecurity, automation, SQL, and machine learning. Proven ability to lead cross-functional initiatives, solve complex security challenges, and deliver secure, scalable identity solutions.

🧩 CORE COMPETENCIES

Identity Governance Administration (IGA), Privileged Access Management (PAM), Joiner-Mover-Leaver (JML), Least Privilege, Segregation of Duties (SoD), Identity Lifecycle Management, Access Certification, Authentication and Authorization, Zero Trust, Cybersecurity, Governance and Compliance

📁 EXPERIENCE

January 2026 – Present
Addis Ababa, Ethiopia

IS Officer | Identity and Access Management

Commercial Bank of Ethiopia

- Developing and implementing identity and access management policies.
- Automated IAM workflows using C# and SQL.
- Designing and enforcing RBAC models aligned with business functions, minimizing excessive permissions and toxic access combinations.
- Reviewing and integrating systems with the IAM system SSO module via modern protocols like SAML, OIDC, OpenID Connect, OAuth, and others to validate authentication flows and enforce least-privilege access design.

August 2024 –
December 2025

Project Member | IAM Solution

Commercial Bank of Ethiopia

- Supported integration of 30+ banking applications.
- Lead consultations on business processes and risk management for the entire project.
- Collaborated with cross-functional teams to ensure seamless project execution.
- Provided insights to enhance the security and functionality of the integration.

January 2024 –
August 2024

Identity and Access Management Auditor

Commercial Bank of Ethiopia

- Monitor user activity, access logs, and generate security reports.
- Investigate unauthorized access and suspicious activity across systems.
- Assess and audit IAM processes, policies, and controls. - Ensure compliance with relevant regulations and security standards.

December 2022 –
January 2024

Junior Identity and Access Management Officer

Commercial Bank of Ethiopia

- Managed IAM operations for 15+ enterprise systems.
- Supported over 40,000 users.
- Conducted regular security assessments to identify vulnerabilities.
- Trained staff on best practices for identity and access management.

🎓 EDUCATION

September 2019 –
July 2022
Addis Ababa, Ethiopia

BSc in Computer Science

Microlink Information Technology College

Graduated with Great Distinction, with a **Cumulative GPA of 3.8.**

August 2023 –
September 2025
Addis Ababa, Ethiopia

Msc in Data Science

Emerald International College

Graduated with Distinction, with a **Cumulative GPA of 3.7.**
Machine Learning-Based Fraud Detection in Digital Banking Comparative study using real-world and synthetic banking datasets.

AWARDS

June 2025

EmpowerID

Certificate of Recognition from **EmpowerID** for completing a full-scale IAM deployment at Commercial Bank of Ethiopia

SKILLS

- **Identity & Security:** EmpowerID | Active Directory | Azure AD | RBAC | Identity Governance | MFA | SAML | OAuth2 | OIDC | SCIM
- **Programming:** Python | C# | PowerShell | SQL
- **Databases:** Microsoft SQL Server
- **Data Science:** Pandas | NumPy | Scikit-Learn | Machine Learning | Data Visualization
- **API:** REST APIs | JSON | SCIM API | OAuth APIs
- **Soft Skills:** Leadership | Problem Solving | Critical Thinking | Communication | Stakeholder Management | Project Coordination | Technical Documentation

CERTIFICATES

File Security Associate (OFSA)

OTHER TOOLS

- IIS
- Windows Server
- Active Directory
- LDAP

PROJECTS

Machine Learning-Based Fraud Detection

- Built fraud detection models using Random Forest, XGBoost, LightGBM and Neural Networks.
- Applied SMOTE for class imbalance.
- Achieved high fraud detection accuracy using real banking datasets.

Commercial Bank IAM Deployment

- Participated in enterprise-wide IAM implementation.
- Integrated 30+ applications using SAML, OIDC and OAuth.
- Developed custom connectors and workflows.
